Hard Lines.

"About all he got out of the railroad after it run over him," says a Georgia paper, "was a wooden leg, and his second wife hit him 'side the head with it, and the poor man's been afflicted with the rattlin' of the brain ever since."

Cleaning Flower Vases.

Flower vases with long necks can be cleaned by filling them with hot water and small pieces of newspaper. Shake vigorously, and you will find that the paper will remove all the dust and sediment from the inside.

Appreciation.

"That picture," said the collector, "is a thousand years old." "My!" exclaimed Mrs. Cumrox, as she poised her lorgnette. "It wears well, doesn't it?"

Shrewd Dodge.

"This new murderer is a foxy one." "How so?" "Declares he's perfectly sane. Now, of course, everybody will have to go to work to prove he's insane."

Safe.

"Johnny, you naughty boy, you have been fighting again, and lost two of your teeth." "No, I ain't, mother; they are in my pocket."

a million employees, supports directly 1,000,000 people, and indirectly many others in tributary operations, with their dependents.

The United States overtook the United Kingdom about 1882. Germany rose to second place about 1900, showing a remarkably steady and consistent increase since that time. Canada has entered the field, and will be heard from in the future, having now the Algoma Steel Corporation at Sault Ste. Marie, Ontario, and the Dominion Steel Corporation on the Atlantic coast. Each of these plants is modern and well equipped. France, which is compelled to import about one-third

of its fuel, leads Russia and Austria-Hungary, which in turn slightly exceeds Belgium.

The output of the United States is as erratic as it is enormous. We are losing ground in the world's production of pig iron, like England, but gaining in steel. Disastrous strikes in Great Britain compelled her to import pig iron last year to supply the steel works.—L. DeG. Moss, in Engineering Magazine.
